## ingentaconnect Complete

**ingentaconnect** offers one of the most comprehensive collections of academic and professional research articles online - some 2.5 million articles from 13,500 publications.

Take full control of your online publications with our ingentaconnect Complete package, a suite of competitively-priced modules designed to enhance our basic services, reduce your administrative burden and provide greater functionality to your patrons in a familiar environment.

- n Fully customizable interface to 13,500 scholarly publications
- n Mediated and unmediated document delivery
- n Holdings upload and OpenURL compliancy to integrate with other online and offline collections
- n InTouch current awareness to keep users up-to-date with the literature
- n Comprehensive usage statistics and reports to inform collection management decisions
- n Patron pre-registration to simplify roll-out to, and ongoing usage by, patrons
- n Enhanced searching, restricted to your subscriptions.

ingentaconnect Complete modules feature:

- n Integration with your OPAC & OpenURL server
- n Flexible, but controlled, document delivery
- n Fully-customized interface
- n InTouch current awareness new issue and search alerting

### **Module 1: integration with your OPAC & OpenURL server**

Maximize the value of your entire collection by uploading holdings information to ingentaconnect and configuring details of your link server. These are used to link users to your other online and offline holdings, and to block unnecessary purchasing.

### **Module 2: flexible, but controlled, document delivery**

Control your budget, while providing users with mediated and unmediated document delivery access to articles from non-subscribed publications. Set up cost centers with appropriate spending caps for different user groups. Benefit from discounts on large-volume orders.

### **Module 3: fully-customized interface**

Ensure that users accessing our collection recognize that it is endorsed and administrated by your institution. Add customized site messaging to offer context-sensitive assistance to your users, in addition to banner branding with your logo, link and institutional colors.

### **Module 4: InTouch current awareness new issue and search alerting**

Keep your users up-to-date with our InTouch email and RSS alerting services. A full license provides unlimited new issue and search alerts for over 13,500 publications.

### **Reduced administration**

Keep your users up-to-date with our InTouch email and RSS alerting services. A full license provides unlimited new issue and search alerts for over 13,500 publications.

### **Enhanced reports and statistics**

Make informed journal management decisions based on monthly user reports, account spending summaries and advanced statistics via a dynamic Flash interface.

### **Superior searching**

Be confident that your researchers' results will be fruitful and free with a feature that allows them to limit searches to subscribed content only.

### **Dedicated customer service support**

Receive unlimited toll free support from our dedicated customer service team, ready and willing to assist in any way they can.

**“We know we can rely on Publishing Technology’s staff to deliver excellent service, and we trust the ingentaconnect platform to perform well and provide solid functionality to our users.”**
